

CENTER OF APPLIED TECHNOLOGY SOUTH

Our Vision ...

is to empower all students to become positive, contributing members of society with the ability to transition into the workforce and post-secondary education confidently and successfully.

Our Mission ...

is to prepare all our students for career pathways in the global marketplace by offering experiential learning, post-secondary credits, and industry certifications. Students will gain high-level technical, academic, and employability skills, equipping them to be lifelong learners and successful citizens, workers, and leaders in a global economy.

We Believe ...

all students should have equal access to all programs.

programs should reflect state-of-the-art changes in technology, business, industry, and society.

course offerings should maintain a balance of theory, interdisciplinary activities, and applied learning.

all programs should:

- provide training for skill attainment and industry recognized certifications.
- provide authentic experiences with industry career professionals.
- prepare students for post-secondary education, careers, and adulthood.
- promote the transferable skills of problem-solving, decision-making, and effective communications.
- develop positive work habits, attitudes, and ethics.
- provide instruction that is rigorous and relevant for student success.
- provide value-added options for all career pathways.
